STAT

STAT

1. MAG Chairman, called the meeting to order at 9:30 and introduced the new members of the MAG Group.

STAT

2. The status of the ODP Career Develop Plans was discussed
 The MAG Group has SPS and Operations Career Development Plans for review and Applications' Career Development Plans will be distributed to the MAG Group soon. Further discussion on the Career Development Plans will be tabled until a larger sampling is available.

STAT

3. elicited discussion of the performance appraisal definitions for fitness reports with regard to the wording of the definitions and how effective the present evaluation system is vis-a-vis the old system. The consensus of the group was that the new system was better and the wording okay. It was felt by the members that there should be easy access to the definitions prior to the time of the final PAR review.

4. ODP reassignments will now be allowed only when there is an immediate replacement available. When a significantly advantageous assignment is available to an employee, this restriction may be waived.

STAT

5. [redacted] sent his thanks for the MAG's assistance and support in raising money so he can participate in the deaf olympics.

6. Old members of the group were dismissed from the meeting at the conclusion of old business.

STAT

STAT

7. [redacted] was re-elected Chairman and [redacted] [redacted] was re-elected Executive Secretary of the MAG Group. Elections will be held again in September 1981. These positions are held for six months.

STAT

8. Bruce Johnson joined the MAG Group to meet the new members and talked to the members about the function of the MAG Group.

9. It was suggested that someone attend next month's MAG meeting to explain how the ranking process is performed.

STAT

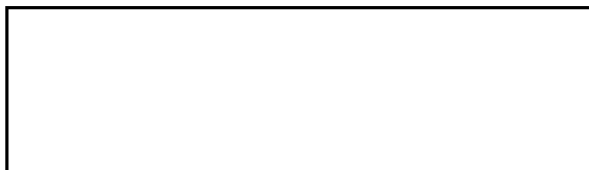

STAT

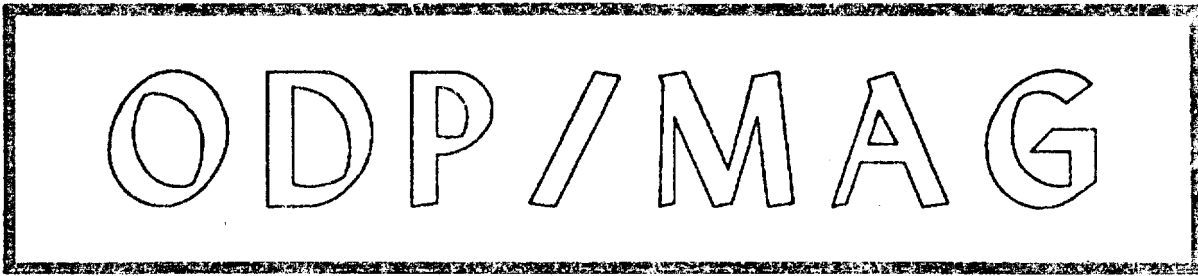

10. The next MAG meeting will be at [redacted] April 7, at 10:00, [redacted] Agenda items should be forwarded to [redacted] [redacted] by April 3.

THE SECOND VIDEO TAPE PROGRAM

TAKING CARE OF THE BODY

Without a doubt the electronic revolution is having a profound effect on the field of medicine. Many of the present capabilities in this area of science are already startling. Join the ODP/MAG in a special showing of two more FAST FORWARD films to see what the future of medicine will really be like with the aid of new electronic technology.

PROGRAM DESCRIPTION:

1. BIOMEDICAL ENGINEERING

The blind, the deaf, and other handicapped people can benefit from new technology specially designed to replace damaged or ineffective bodily senses and functions.

2. ELECTRONIC MEDICINE

The body is more than just a chemical organism to be doused with drugs when unhealthy. The body is also electronic and subject to safe electronic manipulation. This program shows the electronic "pill" that can cancel pain without addiction; electronic growth stimulation that can speed fracture healing in bones; and also the celebrated cardiac pacemaker.

*
* These two films will be shown at 12:30 *
* on March the 11th, in room 1E-74 HQ. *
* The program will last about one hour. *
* All ODP employees are invited. *
